

Studio Guest Package

For violinists and violists not enrolled in regular lessons

The studio guest package is completely customizable. Maybe you haven't played violin in several years and are wondering what's still there. Maybe you are self-taught but have reached a plateau. Maybe you play casually but are wanting to get more serious and are looking for direction. Maybe you want some extra training for all-state auditions.

My most typical student is the amateur that has reached a plateau and wants more access to their TONE! I love unlocking the bow arm for such students and I've found that six lessons tends to be the perfect number to get them truly leveled up.

This package is six lessons over eight total weeks. It is offered in three lesson times depending on your experience and goals:

- 30 minutes (\$225)
- 45 minutes (\$285)
- 60 minutes (\$345)

If this doesn't quite seem to suit you, feel free to reach out to me to figure out an actual custom package, such as a single lesson or something.
