

Discovery Package

For beginners ages 8 and up

The discovery package is a way for you to try out violin long enough to get a feeling for what it's like, and then see if you want to continue.

For this package to be successful, you are asked to make space in your life to practice each day. If you aren't sure whether you're up for that, you can give it a shot without being obligated to be successful. Or maybe you think that it couldn't possibly be so important to practice daily and you're going to make it work with less practice. Again, give it a shot! I'd love to be wrong.

The price is \$685 and includes:

- 14 45-minute lessons taken over 18 weeks
- Email follow-ups to each lesson
- Customized, adaptable curriculum drawing from a myriad of sources and responsive to the student's temperament and interest
- A follow-up meeting between teacher and parent after the conclusion of the package

It does not include the following mandatory equipment:

- Violin, bow, case, rosin, etc
- Music stand
- Music books

Important Note: Students do not need to have a violin their first lesson and it is better to wait to purchase one than accidentally get the wrong size.

Student may be asked to make other purchases in support of his or her study.
